

AGENDA

Meeting with Uinta Basin Oil and Gas Industry

Thursday, September 3, 2015
EPA Region 8 Conference Center
Bitterroot Room
1595 Wynkoop Street
Denver, CO 80202

Purpose: To gain industry input as to which Control Technique Guidelines would be most appropriate, practical and cost-effective to include in a potential rulemaking in the Uinta Basin. We are also interested in new ideas for control strategies for equipment, such as dehydrators, that are not yet part of state or federal requirements.

9:00 – 9:30 AM	Introductions and Opening Remarks	Carl Daly, EPA Region 8 Air Director Bryce Bird, Utah DAQ Director Mike Natchees, Ute Tribe's Air Quality
9:30 – 10:00 AM	Summary of Proposed Indian Country FIP for Minor Oil and Gas Sources, and Control Technique Guidelines	Carl Daly, EPA Region 8 Air Director
10:00 – 10:30	EPA's Understanding of the Universe: Sources/Emissions Data Derived From Minor Source Registration Data	Cindy Beeler, EPA Energy Advisor
10:30 - 12:00 PM	Discussion of Which CTGs Are Most Reasonable/Appropriate for the Uinta Basin; Other Control Strategies?	Everyone

Call in #: 616-933-8900
Passcode: 616-933-8900

Ex. 6 - Personal Privacy
